

第六话：广播体操季！

Ch.6 Radio *Gymnastics* Killer Punch!

Second Move...
Explosive Taking Off

第三式

Third Move

Sun is Rising!!

朝阳初升!!

*Rising Sun

It is a combo skill? So the last move is just a decoy!

Damn!

Fourth Move

第四式

Great Summoning Era

大召唤时代

Time of Calling

What the
shenanigans!

Don't go
too far!

Top --

That power... so close!
If I were hit just now...

Devil Executioner is as
strong as ever... it seems
we don't need to worry

No, on the contrary, things are not
looking well. There had to be a quick
resolve

Ex? 'Why?

These moves use up your
steering quickly. Devil
Executioner has already
overdrafted his steers
in the fight.

Although there are regeneration moves
in the acts, but according to my obser-
vation, Devil Executioner can at most
hold until the 7th Move!

Fifth Move!!
Vigorous Essence!!

活力精華!!

In Devil Executioner's set moves, the 5th and 6th are not attacking moves but preparation skills for next attacks

Among which the 5th move can regenerate stamina quickly but takes a long time to perform

Vigour of Youth

This is
my chance!

Don't try to fool me! This
loophole-filled move is not
an attacking move at all!

Sixth Move...

What? Devil Executioner
skipped the 5th move and
gave up the chance of re-
generating stamina!

炫彩之光!!

Fabulous Light!!

It's...

Dust, stones and...
water drops?

The powerful explosive force
winds up debris nearby and
forms a vortex!

Like a stream with strong light, it disturbs the
opponent's view and blocks his moves. Its main
purpose is to increase the chance of hit for the
next move!

Seventh Move!

Here it
comes!

The finishing
move!

Floors, hit!
